

POWER | iSERIES OFFERINGS

FLEXIBLE SOLUTIONS ALLOWING IT DEPARTMENTS TO FOCUS ON THE CORE BUSINESS AND DRIVE REAL BUSINESS VALUE

SIS has been providing POWER | iSeries design, implementation, and consulting services since its introduction. We currently manage and/or provide infrastructure for hundreds of LPARs located in our facilities or at various companies across the country. Our consultative engagement model and flexible offerings enable our customers to offload as little or as much as they want, optimize their enterprise IT spend and unlock the value of their existing investments.

Our comprehensive service offerings minimize the effects of the following events:

MAJOR DOWNTIME OF PRODUCTION ENVIRONMENT

SIS Backup, Recovery on Demand, and High Availability

LACK OF CAPITAL BUDGET FOR TECHNOLOGY REFRESH
